

# The Best Bets in Craps: So You Want to Bet Like a Pro

Craps is one of the most exciting and popular casino games in the world. It's a dice game that's easy to learn, but it can be difficult to master. One of the most important things to learn when playing craps is how to bet. There are many different bets you can make, and each bet has its own odds and payouts. In this article, we'll discuss the best bets in craps so you can start betting like a pro.

## The Basics of Craps

Before we discuss the best bets in craps, let's first go over the basics of the game. Craps is played with two dice. The objective of the game is to bet on the outcome of the roll of the dice. There are many different bets you can make, but the most common bets are the pass line bet and the don't pass line bet.

The pass line bet is a bet that the shooter (the person rolling the dice) will win. The don't pass line bet is a bet that the shooter will lose. Other common bets include the come bet, the don't come bet, the place bet, and the buy bet.

## **The Best Bets in Craps**

Now that you understand the basics of craps, let's discuss the best bets in the game. The best bets in craps are the bets with the lowest house edge. The house edge is the percentage of each bet that the casino keeps over time. The lower the house edge, the better the bet.

The following are the best bets in craps, listed from best to worst:

1. **Pass line bet** (1.41% house edge)
2. **Don't pass line bet** (1.36% house edge)
3. **Come bet** (1.41% house edge)
4. **Don't come bet** (1.36% house edge)
5. **Place bet on 6 or 8** (1.52% house edge)
6. **Place bet on 5 or 9** (1.41% house edge)
7. **Buy bet on 4 or 10** (1.41% house edge)
8. **Buy bet on 5 or 9** (1.36% house edge)

## **How to Bet Craps**

Now that you know the best bets in craps, let's talk about how to bet the game. The first step is to find a craps table at a casino. Once you've found

a table, you'll need to buy chips. You can do this by exchanging cash or a credit card for chips at the cashier's cage.

Once you have your chips, you're ready to start betting. To bet on the pass line, simply place your chips on the "pass line" area of the table. To bet on the don't pass line, place your chips on the "don't pass line" area of the table.

There are many other bets you can make in craps, but the pass line bet and the don't pass line bet are the most common. Once you've placed your bets, the shooter will roll the dice. If the shooter wins, the pass line bets will pay even money. If the shooter loses, the don't pass line bets will pay even money.

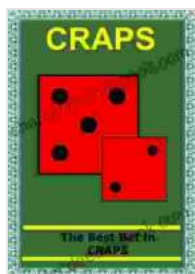

## **Tips for Betting Craps**

Here are a few tips for betting craps:

- Stick to the best bets. The bets listed above have the lowest house edge, so they're the best bets to make.
- Manage your bankroll. Don't bet more money than you can afford to lose.
- Don't chase your losses. If you lose a few bets in a row, don't start betting more money in an attempt to win back your losses.
- Have fun. Craps is a game of chance, so don't take it too seriously. Just relax and enjoy the game.

Craps is a fun and exciting casino game. If you're looking to bet like a pro, be sure to stick to the best bets and follow the tips outlined in this article.

With a little practice, you'll be able to improve your odds of winning and have a great time playing craps.
